

***Fastflo* demo installation instructions**

1. Create a directory on your hard drive to hold the *Fastflo* files and executable. Then extract the files from *Fastflo Demo.zip* and store them in this directory.
2. To install *Fastflo*, simply run setup.exe and follow the instructions. After installation, there will be a shortcut *Fastflo* folder on your desktop and a *Fastflo* icon under Programs in the Start-up menu.
3. Because you are starting *Fastflo* without having a license number, you will get an error message, but *Fastflo* will start up in a limited mode. All functionality is provided, but there is a limit on the size of the data sets.
4. For information on using *Fastflo*, you may refer to the Help file.

This demonstration copy will provide you with the ability to test out the functionalities of the software *Fastflo*.

If you would like more information, or to order a full copy, please contact CSIRO at Fastflo@csiro.au.
